ON THE FIRING LINE.

What it means to most men.

There are man y true heroes that have perished in the European war who "never smelled powder," but who succumbed to sickness after hard campaigning-coupled with bad water and lack of food. The sick and debilitated man is as much out of place in his struggle for life and existence as he would be on the firing line. On the other hand the strong, vigorous man, his veins filled with rich, red blood, has an enormous advantage in whatever position he may be fated to cccupy, in war or business.

The prompt and certain action impurities from the blood, sets in motion the repair process which works actively on the diseased membrane where Catarrh flourishes unchecked or where the skin gives warning of the had blood beneath by showing nimples and boils, also the skin clears up and becomes wholesome and ruddy.

Thus by building up a new and perfect covering and carrying out of the system the Catarrh infested matter nently conquered.

There is not a drop of alcohol or any narcotic in Dr. Pierce's Golden Medical Discovery, but in this safe vegetable remedy there is a mighty alterative power which by replacing the blood impurities with pure, rich blood, mr. and Mrs. 2. M. white where the first of the wherever located, but vitalizes the kidneys, stomach, liver, bowels and ever yorgan of the body. People who suffer humiliation and mental misery on Misses Alma and Bell Morefield on Misses Alma and Bell Morefield on Sunday last.
